LED Emergency Light User manual

1. Model

DS-601-3

2.Product

LED Emergency Light

3. General

(A) Feature：Use LED to improve lifespan question of traditional bulb light, also, it reduce mechanical depth and variety.

(B) Installation position：Install it in LED light position

(C) Function：For LED light purpose.

4. Operation

(A)Install LED light in proper fixing position.

(B)Wiring according wiring diagram

(C)Check the wires by multimeter

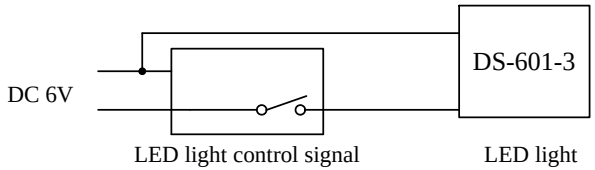
(D)Input AC 6V or DC 6V signal and check whether LED light normally.

(E)LED light can work normally after finishing above steps

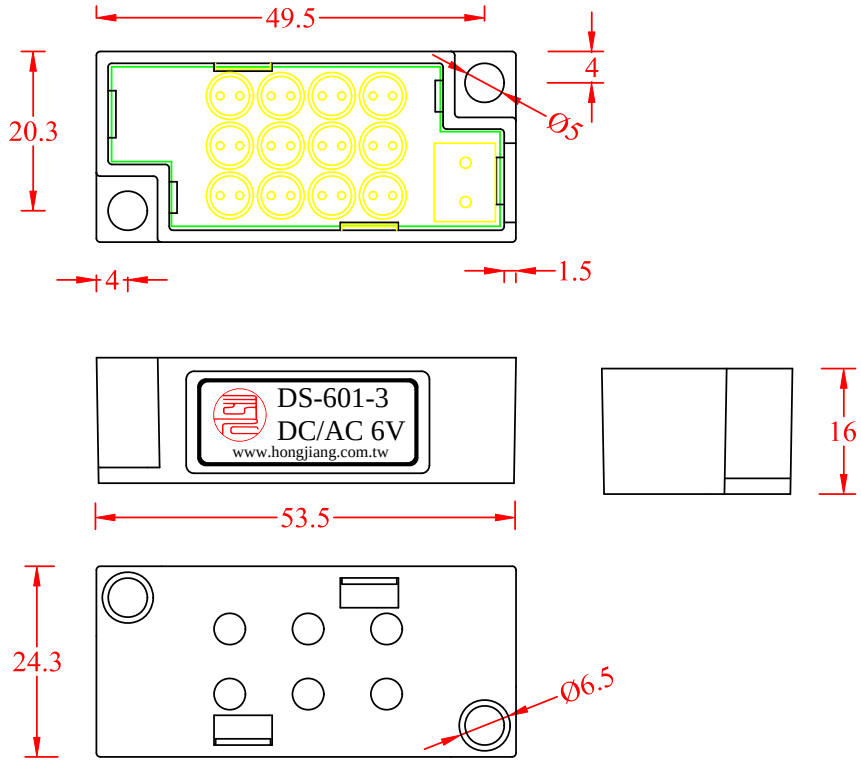
5. Specification

Standard Voltage	DC 6V	
Voltage range	DC 5.5V~DC 6.5V	
Standby power consumption	0 W	
Standby current consumption	0 mA	
Operating current consumption	Standard input voltage	60mA
	Lowest input voltage	36mA
	Highest input voltage	145mA
Display area	25.5 * 19mm	
Dimension(L*W*H)	53.5*24.3*16mm	
Weight	13.2g	

6. Wiring diagram



7. Dimension diagram



Unit: mm
